Shaft ceiling with lights (std)

# Eco Silent

EcoSilent is one of the quietest & most energy efficient lift systems in the world. A lift equipped with this system carries an Energy Label A & uses 45% less power.

## What's included.

Drive Unit

The eco drive unit has been completely redesigned for silent & energy-efficient operation.

Lifting Screw

The lifting screw has a 3 x pitch (36mm) with new screw joints.

Guide Rollers

The guide rollers reduce the frictional force by 90% & need no lubrication, which facilitates maintenance

Silent Box

The drive unit is completely enclosed in an elegant soundproof metal casing, designed to cover up the drive unit & to eliminate high-frequency noise.

## What is the value...

Reduced running costs

Use more, service less

Increased lifespan of parts

# Doors

The doors you choose will create a lasting first impression & are key to your overall design.

Our doors are Swedish designed to add a contemporary feel to your home.

## Door Style

# A4 Primo Sizes

When considering which size lift to install it is important to know what outcome you are looking to achieve.

With space permitting the A4 Primo sizes provide significantly more options than the A4 Mini range which in our experience tends to add greater value to a home.

**\*Please do not build to the specifications below.** Contact us & we will provide detailed information specifically for your project.

## Sizes, what do they mean?

S9, S10, S11 - Suitable for 3 persons

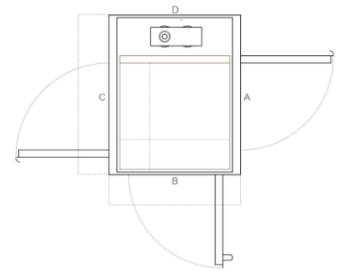

1 person in manual wheelchair	2 persons + groceries/ laundry/ luggage	1 person + 1 walker
-------------------------------	-----------------------------------------	---------------------

S12, S13 – Suitable for 4 persons (tight)

1 person + 1 person in manual wheelchair	2.5 persons + groceries/ laundry/ luggage	2 persons + 1 walker
------------------------------------------	-------------------------------------------	----------------------
