

NEXT GENERATION PLATFORM LIFTS
KALEA KOSMOS

KALEA KOSMOS
x60

The Kalea Kosmos has an elegant, futuristic design and a virtually soundless drive system to blend in seamlessly with your interior design and everyday life. To ensure that you get a lift which is perfectly adapted to your needs and budget, the Kalea Kosmos is available in three different models. We invite you to discover the Kalea Kosmos X60, X70 and X90, our next generation of platform lifts.

SWEDISH QUALITY & DESIGN SINCE 1898

ECOSILENT DRIVE SYSTEM

The EcoSilent drive system was inspired by the beauty and serenity of the Swedish landscapes. This revolutionary drive system makes our lifts more quiet and energy-efficient than ever before.

The EcoSilent system reduces the energy consumption of your lift by 45% and a great investment for your lift and for the planet.

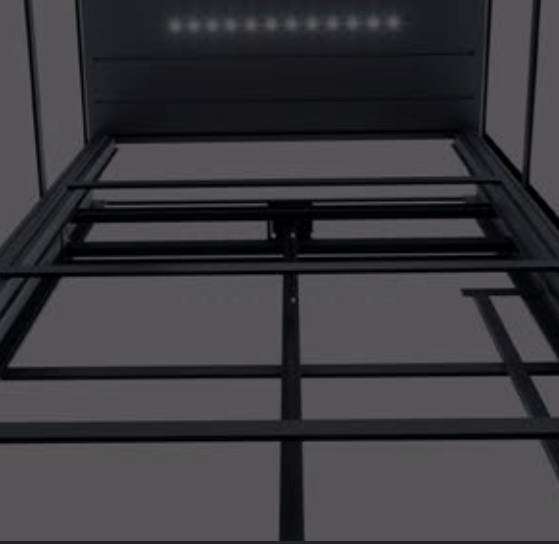

- ✓ QUIET OPERATION - MORE SILENT THAN A MODERN DISH WASHER
- ✓ ENERGY LABEL A - CONSUMES LESS THAN A MODERN WASHING MACHINE (215 KWH/YEAR)*
- ✓ LOW OPERATING COSTS - OPTIMISED DRIVE WITH MINIMAL WEAR AND TEAR

* Yearly energy consumption based on a 2 stop lift with 3.6 m travel, equipped with EcoSilent and a frequency of use of 20 travels/day.

Our lifts are always delivered with a ready-made shaft in steel or glass to speed up installation and reduce your building costs. In addition, the smart construction of our platform lifts makes it possible to glaze all 4 sides of the lift shaft, offering you the opportunity to create an elegant and ethereal lift design that preserves the light and airiness of your space.

SAFE & RELIABLE LIFT TECHNOLOGY

Our lifts are driven by screw and nut, a reliable and robust technology, which requires very little maintenance. Thanks to this unique drive system, our lifts require no separate machine room, no lift pit, and a headroom of only 2300 mm on the top floor.

- ✓ BATTERY EMERGENCY LOWERING - AUTOMATIC LOWERING OF THE LIFT IN CASE OF POWER OUTAGE
- ✓ OVERLOAD PROTECTION
- ✓ CONTROL SYSTEM WITH SAFETY INTEGRITY LEVEL 3 (SIL3)
- ✓ SAFETY EDGES STOP THE LIFT AT THE SLIGHTEST TOUCH
- ✓ OPTIONAL FIRE DRIVE CONNECTED TO FIRE ALARM
- ✓ OPTIONAL CHILD LOCK AND TAG LOCK SYSTEMS

CHILD LOCK SAFETY FUNCTION

The child lock prevents young children from using the lift unsupervised. A great option to keep your family safe.

TOUCH SCREEN

USER-FRIENDLY TOUCHSCREEN CONTROLS

Because we want our lifts to offer you a unique and comfortable user experience, the Kalea Kosmos is equipped with responsive, ergonomic touchscreen controls for the platform and landings. In addition, the smart floor indicators of Kosmos X70 and X90, interact with you by providing useful information about lift operation status.

LUMINOUS DESIGN

INSPIRED LIGHTING - The elegant downlights of the control panel create a beautiful play of shadow and light.

THIS IS KALEA

Kalea was created in 1898 in Gothenburg, Sweden, and is one of the oldest lift brands still in existence. In 2008, Kalea became a member of Cibes Lift Group, one of the world's largest manufacturers of space-saving, modular lifts. All lifts are manufactured in our factory in Gävle, Sweden, and distributed to more than 50 countries via a network of 200 certified dealers. Visit www.kalealifts.com to find your closest dealer.

For more product details and information about the product and accessory selection, contact Kalea Lifts. This product information is general and we reserve the right to modify product design and specifications. All images of lifts and samples in this brochure are displayed for inspirational purposes only and deviations in colour reproduction may occur. For critical colour matches, physical painted samples and physical floor samples are recommended. Kalea Lifts is a brand owned by © Cibes Lift Group AB.
